25X1A1.  Comment. As compared with the last reported period, the loading performance remained almost constant. On Sundays the loading performance showed the usual decline. Traffic for the Soviet occupation forces was normal. Most of the cars claimed by the Soviets were probably used for commercial shipments.

25X1A 2.  Comment. These data supplement information contained in previous reports and breaks down the number of cars loaded for the Soviets and loaded with coal, according to the eight railroad districts. See
